## **Common IQR method**

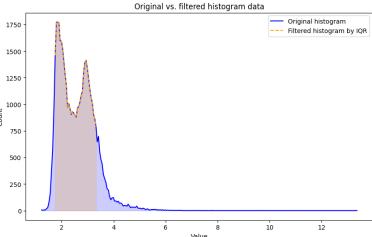

## Skew-to-right data

Skew-to-left data

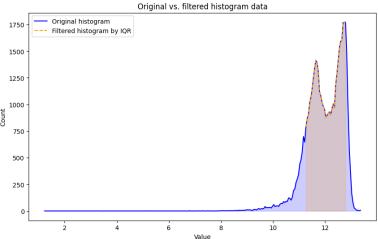

Original vs. filtered histogram data

## **Custom IQR method**

Value
Histogram data was cleaned of outliers by IQR method with
starting quantile as 40th, ending quantile as 60th,
IQR as 0.20, and IQR multiplication factor as 1

Histogram data was cleaned of outliers by IQR method with starting quantile as 40th, ending quantile as 60th, IQR as 0.20, and IQR multiplication factor as 1
